

Institute for Translational Research in Adolescent Behavioral Health

About the Institute

The mission of the Institute is to provide an innovative education program in translational research, implementation science, and evidence-based practice in adolescent behavioral health. The Institute is sponsored by the National Institute on Drug Abuse, Grant 1R25DA031103-01A1.

Program Highlights

- Academic-community partnerships among USF and Community Collaborating Partners
- Application of an innovative research knowledge base to a service-learning research project
- Coursework (15 credit hours) and a service-learning research project conducted over four semesters
- Interdisciplinary team mentoring approach
- Funding available to Institute Scholars for course credits and related program activities
- Institute Scholars will earn a Graduate Certificate in Translational Research in Adolescent Behavioral Health*

Apply to be an Institute Scholar

- Ten (10) graduate level Institute Scholars will be admitted each year.
- Applicants to the Institute are asked to submit a personal statement, CV or resume, two letters of recommendation, and transcripts.
- Application review will begin October 15th with notification of admission decisions beginning November 5th.
- Coursework begins Spring 2013.
