

CHRISTINA J. DILLAHUNT-ASPILLAGA, PhD
University of South Florida
College of Behavioral and Community Sciences
Department of Child and Family Studies
Rehabilitation and Mental Health Counseling Program
13301 N. Bruce B. Downs Blvd. Tampa, FL 33612
Phone: 813-974-1282 Fax: 813-974-8080
Email: cdillahuntas@usf.edu

EDUCATION

PhD University of Florida, 2005
Doctor of Philosophy in Rehabilitation Science; Specialty: Disability Science
Major Advisor: Elizabeth Boland, PhD, CRC

MHS University of Florida, 2001
Master of Health Science in Rehabilitation Counseling

BA University of Florida, 2000
Bachelor of Arts, cum laude, in Sociology

LICENSURE AND CERTIFICATIONS:

Certified Rehabilitation Counselor, CRC	# C-00049887	Exp. 03/31/2022
Certified Vocational Evaluator, CVE	# V-00049887	Exp. 09/30/2021
Certified Life Care Planner, CLCP	# 1021	Exp. 03/31/2019
Professional Vocational Evaluator, PVE	# 00062	Exp. 12/31/2019
Certified Brain Injury Specialist Trainer, CBIST	# 5453	Exp. 10/21/2017
Certified Information and Referral Specialist, CIRS		Exp. 01/26/2019

PROFESSIONAL EXPERIENCE

University of South Florida

College of Behavioral and Community Sciences, Department of Child & Family Studies,
Rehabilitation and Mental Health Counseling Program (RMHC)

- *Associate Professor* (2017-present)
- *Assistant Professor* (2011 - 2017)

Brain Injury Association of Florida, Inc. (BIAF)

- *Consultant and Brain Injury Specialist Trainer* (2011- Present)
- *Director of Family Programs & Services* (2010 - July, 2011)
- *Family and Community Support Program Coordinator* (2005 –2009)
- *Prevention Specialist* (2004-2009)
- *Researcher* (2004)

University of North Florida

- *Adjunct Professor* (2008-2011)

Center for Independent Living of North Central Florida

- *Employment Services Specialist* (2001-2002)
- *Independent Living Skills Trainer* (2001)

North Central Florida AIDS Network

- *Case Management Intern* (1999)

GRANTS AND FUNDED PROJECTS

External Awards

Achieving Competitive Customized Employment through Specialized Services (ACCESS)

Agency: National Institutes of Health/National Institute of Mental Health (R34)
Funding Level: \$672,750
Role in Project: Co-Principal Investigator (Co-PI, Jorgensen-Smith)
Description: The goal of this R34 application (RFA-MH-17-205) is to develop an intervention that can be utilized by community-based Vocational Rehabilitation (VR) service practitioners to improve competitive employment outcomes for adults (age 22+) with disabilities.
Dates: 2017-2019

Employment and Vocational Rehabilitation of Veterans with Deployment-Related Stress – Phase II

Agency: Veterans Health Administration HSR&D; IPA 1257-1017
Funding Level: \$28,140.15
Role: Co-Investigator (PI, Powell-Cope)
Description: This pilot study explores employment concerns and vocational rehabilitation needs of Veterans with deployment-related stress.
Dates: 10/01/16-09/30/17

Exploring Resource Facilitation Services for Veterans with Traumatic Brain Injury (TBI)

Agency: Veterans Administration Foundation LIP 71-017; IPA 1257-1016
Funding Level: \$10,020.60
Role: Principal Investigator
Description: This purpose of this project is to examine resource facilitation (RF) services for Veterans and service members with TBI. RF is recognized as a best practice of resource service delivery in civilian populations and consists of a partnership that helps individuals and families navigate community resources to improve community re-integration outcomes.
Dates: 3/7/2016-9/30/2016

Rehabilitation Counseling Master's Degree Program: A Solution to Personnel Shortages in the Florida Public Vocational Rehabilitation System

Agency: Rehabilitation Services Administration, U.S. DOE; H129B150004
Funding Level: \$1,000,000
Role: Co-Principal Investigator/Assistant Director
Description: This project promotes recruitment, training, and development of highly qualified rehabilitation counselors to meet the high demand for public sector providers of Vocational Rehabilitation (VR) services.
Dates: 10/01/15-09/30/19

Employment and Vocational Rehabilitation of Veterans with Deployment-Related Stress

Agency: Veterans Health Administration HSR&D; IPA 1257-1012
Funding Level: \$27,990
Role: Co-Investigator (PI, Powell-Cope)
Description: This pilot study explores employment concerns and vocational rehabilitation needs of Veterans with deployment-related stress.
Dates: 10/01/15-09/30/16

Measuring Quality of Life in Veterans with Deployment Related PTSD (DR-PTSD)

Agency: Veterans Health Administration HSR&D; IPA 1257-1010
Funding Level: \$14,291
Role: Co-Investigator (PI, Luther)
Description: This pilot study explores how employment concerns of Veterans with DR-PTSD are associated with Health-Related Quality of Life (HRQOL) within the Patient-Reported Outcomes Measurement Information System (PROMIS) and Neuro-QOL framework.
Dates: 05/06/16-08/07/15

Community-Based Agricultural Initiatives for Transitioning Veterans

Agency: Veterans Health Administration ORH; IPA 1257-1009
Funding Level: \$170,186 (\$13,466, amount received)
Role: Co-Investigator (PI, Besterman-Dahan)
Description: The purpose of this project is to enhance and improve VA partnerships for increased healthcare outreach and access by assessing the impact of Veteran-oriented community agricultural initiatives (CAI) on transitioning rural Veterans.
Dates: 01/15/15-09/30/2015

Employment Status of Veterans Following Diagnosis of a Mild Traumatic Brain Injury (mTBI)

Agency: Veterans Administration HSR&D; IPA 1257-1007
Funding Level: \$13,700
Role: Co-Investigator (PI, Luther)
Description: The purpose of this project is to analyze and interpret employment data available in the Electronic Health Record. This pilot study explores the use of information extraction to examine predictors of successful return to work for Veterans with mTBI.
Dates: 07/07/14-09/30/2014

Action Ethnography of Community Reintegration for Veterans with TBI

Agency: Veterans Administration HSR&D; CRE 12-301
Funding Level: \$996,953 (\$27,500, amount received)
Role: Consultant (Co-PIs, Powell-Cope & Besterman-Dahan)
Description: The purpose of this project is to improve understanding of the experiences of Veterans with moderate to severe TBI, families and community reintegration (CR) workers as they transition to and sustain living in communities.
Dates: 01/01/2013-01/01/2018

Natural Language Processing to Improve Measurement of Unemployment in Veterans with TBI

Agency: Veterans Administration HSR&D; IPA 1257-1003
Funding Level: \$50,000 (\$9,039, amount received)
Role: Co-Investigator (PI, McCart)
Description: The purpose of this project is to develop an annotation schema and a training set of annotated documents to support the development of a natural language processing (NLP) system to reliably extract employment information from the Individualized Rehabilitation and Community Reintegration Care Plan.
Dates: 06/10/2013-09/30/2013

Extending SmartHome Technology for Cognitively Impaired Veterans to Delay Institutionalization – Phase II

Agency: U.S. Department of Veterans Affairs
Funding Level: \$492,888 (\$8,560, amount received)
Role: Co-Investigator (PI, Jasiewicz)
Description: The purpose of this phase II project is to increase the response, adoption, and utilization of the “smart” technology to delay institutionalization for Veterans with cognitive impairments. Extend “smart” technology to a smartphone to provide contextual support both inside and outside of the home environment.
Dates: 05/01/2013-04/30/2014

Extending SmartHome Technology for Cognitively Impaired Veterans to Delay Institutionalization

Agency: U.S. Department of Veterans Affairs
Funding Level: \$650,952 (\$19,976, amount received)
Role: Co-Investigator (PI, Jasiewicz)
Description: The purpose of this project is to address the needs of cognitively impaired veterans at risk for institutionalization. Technologies in this project are designed to extend independence at home, decrease caregiver burden, and prevent institutionalization. This project extends the successful Polytrauma Transitional Rehabilitation Program (PTRP) smart home to a home-based population where a current gap in services exists.
Dates: 05/02/2012-04/30/2013

Internal Awards

Faculty International Travel Grant

Agency: University of South Florida
Funding Level: \$2473
Role: Grant Recipient
Description: Travel funds awarded to present an instructional course at the America Congress of Rehabilitation Medicine (ACRM) in Toronto, ON, Canada.
Course title: “Inter-professional Clinical Practice Guideline for Vocational Evaluation Following Traumatic Brain Injury-Development. Implementation and Evaluation.”

Dates: 2014

A New eLearning and eTeaching Initiative for USF Faculty

Agency: University of South Florida
Funding Level: \$1859
Role: Grant Recipient
Description: Faculty Online Course Development: Course developed: RCS 5035, Rehabilitation Concepts and Applications, Implementation and Evaluation.
Dates: 2015-2015

A New eLearning and eTeaching Initiative for USF Faculty

Agency: University of South Florida
Funding Level: \$4000
Role: Grant Recipient
Description: "Articulate Academy: Enabling Faculty to Create and Deliver Fully-Online Courses." Course developed: RCS 5080, Medical Aspects of Disability.
Dates: 2012-2012

Grants Submitted

Coalition Building to Implement Evidenced-Based Resource Facilitation and Increase Access to Community Support Services for Veterans with TBI

Agency: VA HSR&D (I21) HX -17-002
Funding Level: \$98,149
Role: Principal Investigator
Description: The long-term goal of this research program is to examine coalition building to provide Veterans with TBI (VTBI) with Resource Facilitation (RF) to address unmet community reintegration needs, and ultimately implement RF with other Veteran populations with chronic conditions. The short-term goal is to use results of the proposed pilot study to inform a Type II hybrid design trial to test coalition building to promote use of RF services among VTBI.
Dates: 2018-2019
Disposition: Impact score 241. Resubmission December 2017

QR Code Based Medication Adherence APP for Cognitive Impairment

Agency: National Institutes of Health (R21)
Funding Level: \$400,875
Role: Co-Investigator (PI, Crosland)
Description: The goal of this R21 application (RFA-PAR-14-119) is to improve medication compliance beyond text prompts for individuals with TBI.
Dates: 2018-2019
Disposition: Not awarded, unscored

Secondary Analysis of Existing Databases in Traumatic Brain Injury to Explore Outcomes Relevant to Medical Rehabilitation

Agency: National Institutes of Health/ National Institute of Child Health and Human Development
Christina Dillahunt-Aspillaga, PhD College of Behavioral and Community Sciences, University of South Florida Vita 2017

(R21)
 Funding Level: \$285,266
 Role in Project: Co-Investigator (PI, Belanger)
 Description: The objective of this R21 application (RFA-HD-16-001) is to assess the utility of individual characteristics and experiences of chronic mild traumatic brain injury (mTBI) patients within the Veterans healthcare system to predict meaningful outcomes. In this project a predictive algorithm for mild TBI recovery trajectory will be developed. The ultimate goal is to allow clinical providers the ability to better tailor specific treatment approaches to particular subsets of patients.
 Dates: 2016-2018
 Disposition: Not awarded, unscored

Sensor-Facilitated Attitude and Behavior Change in Football Coaching Staff

Agency: Mind Matters Foundation
 Funding Level: \$139,522.53
 Role in Project: Co-Investigator (PI, Kearns)
 Description: The purpose of this project is to evaluate changes in attitudes and intent by university football team coaches to return a player suffering head trauma to play after receiving specific information about immediate and season-long cumulative effects of head trauma experienced by student team athletes.
 Dates: 2015-2016
 Disposition: Not awarded

Promoting Health and Well-Being in Rural Veterans by Partnering with Community-Based Agricultural Initiatives

Agency: Veterans Affairs, Office of Rural Health
 Funding Level: \$182,718
 Role in Project: Co-Investigator (PI, Besterman-Dahan)
 Description: The purpose of this project is identify and implement promising practices to enhance and improve VA partnerships with community agricultural initiative (CAI) in order to provide increased healthcare outreach, service options, and access to rural Veterans.
 Dates: 2015-2016
 Disposition: Not awarded

Community-based Agricultural Initiatives for Transitioning Veterans-Sustainment

Agency: Veterans Affairs, Office of Rural Health
 Funding Level: \$174,551
 Role in Project: Co-Investigator (PI, Besterman- Dahan)
 Description: This sustainment project will provide the foundation for larger evaluations of various community agricultural initiative (CAI) models and help us achieve our long-term goal of defining promising practices for enhancing VA-CAI partnerships to increase outreach, access, and service options to rural Veterans at local, Veterans Integrated Service Networks (VISN), and national levels. A vocational CAI will be evaluated in this project.
 Dates: 2016
 Disposition: Not awarded

Pilot Study of Accelerated Resolution Therapy (ART) Among Female Adolescents Ages 12-17 for Treatment of Psychological Trauma and Grief Secondary to Loss of a Parent

Agency: USF Health Women's Health Collaborative Grant
 Funding Level: \$20,000
 Role in Project: Co-Investigator (PI, Elliott)
 Description: The purpose of this pilot project is to conduct the first controlled evaluation of Accelerated Resolution Therapy (ART) as a therapeutic approach for female adolescents with symptoms of psychological trauma and grief secondary to loss of a parent. Results will be used to estimate effect size for a future randomized controlled trial to experimentally examine ART as a potential primary treatment modality for female adolescents with psychological trauma and grief secondary to loss of a loved one.
 Dates: 2015-2016
 Disposition: Not awarded

Potential Promising Practices in VA/non-VA Partnerships to Support Rural Veterans

Agency: Veterans Affairs, Office of Rural Health
 Funding Level: \$176,664
 Role in Project: Project Quality Reviewer (PI, Hannold)
 Description: The focus of this proposed operational improvement project is to identify potential promising practices in partnerships between the Department of Veterans Affairs (VA) and Centers for Independent Living (CILs).
 Dates: 2016
 Disposition: Not awarded

Deploy RESULTS (Realistic Employment Strategies, Ultimate Long-term Success)!

Agency: Kessler Foundation
 Funding Level: \$500,000
 Role in Project: Co-Principal Investigator (Co-PI, Ottomanelli)
 Description: Deploy RESULTS will join forces with federal, state, and community-based veteran and civilian resources to improve employment outcomes for Veterans with traumatic brain injury and spinal cord injury. The RESULTS evidence-based strategies will be implemented in partnership with Florida's Veterans Administration and Tampa VA Polytrauma Hospital.
 Dates: 2016-2019
 Disposition: Not awarded

Information Extraction for Vocational Rehabilitation of Veterans with TBI

Agency: Veterans HSR&D
 Funding Level: \$820,100
 Role in Project: Co-Investigator (PI, Finch)
 Description: The three-year retrospective cohort study of Veterans with TBI will extract employment concepts (terms) that are annotated in the text documents from the electronic health record. A committee of experts in TBI, vocational rehabilitation and medical informatics will validate the terms. These terms will supplement the controlled vocabulary in the International Classification of Functioning, Disability and Health (ICF). This will become baseline data for future research in employment for Veterans with TBI.
 Dates: 2015-2018
 Disposition: Submitted December 2013, not awarded; resubmitted June 2014, not awarded

Rehabilitation Services Administration Long-Term Training Grant

Agency:	Rehabilitation Services Administration
Funding Level:	\$1,111,090
Role in Project:	Co-Investigator (PI, Jorgensen-Smith)
Description:	The project will increase the supply of qualified personnel available for employment in the public rehabilitation sector. Collaborating with the Florida Department of Vocational Rehabilitation, researchers will provide advanced, hands-on vocational rehabilitation training to students in the RMHC program. Student participants will receive scholarships and stipends using on a “return on investment” program that requires work within the public sector after graduation.
Dates:	2014-2018
Disposition:	The request for proposals was rescinded due to FY 2014 budget cuts

Natural Language Processing to Improve Measurement of Unemployment in Veterans with TBI

Agency:	VA HSR&D
Funding Level:	\$100,500
Role in Project:	Co-Investigator (PI, McCart)
Description:	The study will determine if a natural language processing (NLP) system can reliably extract employment information from the TBI Plan of Care. We will leverage data from an ongoing QUERI study (RRP 12-450; PI-McCart). These data consist of (1) Plans of Care for Veterans from two the Tampa Polytrauma Service’s Post-Deployment Rehabilitation Education Program, and (2) random samples of outpatients’ Plans of Care from each of the 23 Polytrauma Network Sites within the Polytrauma System of Care.
Dates:	2013
Disposition:	Not awarded, submitted March 2013 and as a resubmission in February 2013

Enhancing Low ADL Monitoring Program using VA developed SmartHome Technologies

Agency:	VA Office of Rural Health
Funding Level:	\$855,681
Role in Project:	Co-Investigator (Co-PIs, Levy & Jasiewicz)
Description:	This demonstration project targets elderly Veterans living at home in rural areas who are at risk for institutionalization. The latest VA-developed smart technologies will be provides to improve activity monitoring on rural-dwelling frail elderly Veterans and their caregivers in the Veterans’ homes. This project reflects the team-based, collaborative, patient-centric, and inclusive Patient Aligned Care Team (PACT) model of care.
Dates:	2013
Disposition:	Not awarded

Factors Affecting School, Volunteerism & Work for OND/OEF/OIF Veterans

Agency:	Veterans Health Administration, RRD4, Psychological Health & Social Reintegration
Funding Level:	\$197,586
Role in Project:	Co-Investigator (PI, Hannold)

Description: This exploratory study provides a foundational understanding of factors affecting vocational activities for Veterans with mild traumatic brain injury and post-traumatic stress disorder (mTBI/PTSD) to inform vocational rehabilitation practice and guide development of a vocational assessment battery (VAB). A future proposal will be developed to test the effectiveness of the VAB to guide appropriate job-related opportunities and supports that result in improved job acquisition, retention and satisfaction for Veterans with mTBI/PTSD.

Dates: 2011-2012

Disposition: Not awarded
