

CURRICULUM VITAE

JENNIFER JONES LISTER

Associate Dean and Professor

University of South Florida

Undergraduate Studies and the Department of Communication Sciences and Disorders

4202 E. Fowler Ave. SVC 2006

Tampa, FL 33620

(813) 974-9712

jlist@usf.edu

EDUCATION

Doctor of Philosophy in Communication Sciences and Disorders

University of South Alabama, Mobile, Alabama

1999

Dissertation: "Effects of age and reverberation on binaural gap duration discrimination"

Bachelor of Science in Speech and Hearing Sciences

University of South Alabama, Mobile, Alabama

1995

CERTIFICATION & LICENSURE

Certificate of Clinical Competence in Audiology, American Speech, Language, and Hearing Association (1999-Present)

Fellow of the American Academy of Audiology (1999-Present)

Licensed Audiologist, State of Florida Department of Health (2000-Present)

PROFESSIONAL EXPERIENCE

Associate Dean (2017-Present)

Undergraduate Studies

University of South Florida, Tampa, FL

Chair (2015-2017)

Department of Communication Sciences and Disorders

University of South Florida, Tampa, FL

Interim Chair (2014-2015)

Department of Communication Sciences and Disorders

University of South Florida, Tampa, FL

Associate Member (2013-Present)

USF Health Byrd Alzheimer's Institute

University of South Florida, Tampa, FL

Professor (2012-Present)

Department of Communication Sciences and Disorders

University of South Florida, Tampa, FL

Courtesy Professor (2011-Present)

School of Aging Studies

University of South Florida, Tampa, FL

Audiology Graduate Program Director (2006-2014; 2017)

Department of Communication Sciences and Disorders

University of South Florida, Tampa, FL

Interim Audiology Graduate Program Director (2005-2006)

Department of Communication Sciences and Disorders
University of South Florida, Tampa, FL

Associate Professor (2005-2012)

Department of Communication Sciences and Disorders
University of South Florida, Tampa, FL

Assistant Professor (1999-2005)

Department of Communication Sciences and Disorders
University of South Florida, Tampa, FL

Research Scientist (2002-2004)

Utility Measures for Audiological Assessment
Software Development Project Funded by Bay Pines VA Hospital

Research Scientist (2002-2003)

Willingness to Pay for Advanced Hearing Aid Technology
Research Project Funded by Qualitone Hearing Instruments

Research Assistant (1995-1999)

Department of Speech Pathology and Audiology
University of South Alabama, Mobile, AL

Clinical Fellow in Audiology (1997-1999)

Speech and Hearing Center
University of South Alabama, Mobile, AL

Clinical Fellow in Audiology (1997-1999)

Premier Medical ENT Group, Mobile, AL

PEER REVIEWED JOURNAL ARTICLES (names of Dr. Lister's students are underlined)

- Fausto, B.A., Badana, A.N.S., Arnold, M.L., **Lister, J.J.**, & Edwards, J.D. (2018). Comparison of subjective and objective measures of hearing, auditory processing, and cognition among older adults with and without mild cognitive impairment. *Journal of Speech, Language, Hearing Research*, 61(4), 945-956. doi: 10.1044/2017_JSLHR-H-17-0263
- O'Brien, J.L., **Lister, J.J.**, Fausto, B.A., Clifton, G.K., & Edwards, J.D. (2017). Cognitive training enhances auditory attention efficiency in older adults. *Frontiers in Aging Neuroscience*, 9:322. doi: 10.3389/fnagi.2017.00322
- Valdes, E.G., Andel, R., **Lister, J.J.**, Gamaldo, A., Harrison Bush, A.L., & Edwards, J.D. (under review). The efficacy of cognitive speed of processing training among older adults with psychometrically-defined mild cognitive impairment. *Alzheimer Disease & Associated Disorders - An International Journal*

COMMUNITY PRESENTATIONS

- Lister, J.** (2001) Age-related changes in temporal processing. Bay Pines VA Hospital, Bay Pines, FL. *Invited Talk.*

POST-DOCTORAL FELLOWS

- Ana Bujan, Ph.D. (2016-2017)
Jennifer O'Brien, Ph.D. (2010-2012)

DOCTORAL (Ph.D.) DISSERTATIONS

In Progress

- Karen Bell (Chair)
Wendy Olsen (Member)
Diana Julbe-Delgado (Chair)

Completed

- Rachel Ridge McArdle (Member) – “Effect of age and hearing loss on lexical access” 2002
Dee Nikjeh (Co-Chair) - "Auditory Neural Plasticity in Trained Vocal Musicians" 2006. *First Ph.D. graduate from CSD Department.*
Mei-Wa Tam Szeto (Co-Chair) – “Effect of age and hearing loss on perception of dynamic speech cues” 2008
Susan Fulton (Chair) – “Effect of age on temporal masking” 2010
Elizabeth Hudak (Member) – “The effects of cognitive stimulation and computerized memory training among older adults residing in independent-living facilities” 2012
Victoria Williams Sanchez (Member) – “Word recognition in noise among young and older listeners: A combined behavioral and electrophysiological study” 2014
Julie Daughtery (Member) – “The relationship between hearing status and cognitive performance and the influence of depressive symptoms in older adults” 2015
Elise Valdes (Member) – “The effects of cognitive training among individuals with neurodegenerative diseases” 2016
Ben Russell (Member) – “Static and dynamic spectral acuity in cochlear implant listeners for simple and speech-like stimuli” 2016
Jenna Luque (Member) – “Neural and behavioral mechanisms of Clear Speech” 2017

AUDIOLOGY DOCTORAL (Au.D.) PROJECTS

In Progress

Raiza Carmenate (Chair)

Rachel Steiner (Chair) – “Relationships among ERP and cognitive outcomes in older adults with and without mild cognitive impairment”

Completed (in chronological order)

Robert Zelski (Member) – “Inter-rater agreement in the use of the Client Oriented Scale of Improvement” 2000

Patricia Carr (Member) – “Development of an audiology test procedures manual for first year Au.D. students” 2001

Mary Aguila (Chair) – “Effect of presentation modality on predictions of children’s communication ability in the classroom” 2002

Joseph Duran (Chair) – “The role of audiology assistants in a clinical setting” 2002

Nancy Wong (Member) – “The presence of binaural interaction component (BIC) in the auditory brainstem response (ABR) of normal hearing adults” 2002

Maura Kenworthy (Member) – “An examination of the relationship between the U-Titer II and hearing aid benefit” 2002

Lisa Tanner (Chair) – “Effect of early noise exposure on the auditory development of C57 mice” 2002

Dashielle Febo (Chair) – “Effects of bilingualism, noise, and reverberation on speech perception” 2003

Sarah Casey (Member) – “Effects of supplemental magnesium and noise conditioning on temporary threshold shift” 2003

Allison Hulslander (Member) – “Relationship between ear disease and caloric weakness in BPPV patients” 2003

Denise Parrish (Member) – “Monaural speech-in-noise thresholds using the hearing in noise test (HINT)” 2003

D’Arcy Cyr (Member) – “The relationship between optokinetic nystagmus and caloric weakness” 2003

Jennifer Deboodt (Member) – “Treatment of benign paroxysmal positional vertigo: Necessity of postmaneuver patient prohibition” 2003

Julie Coudurier (Chair) – “Efficacy of the TEL-PHONE Telecoil Simulator Program” 2004

Alan Carlton (Chair) – “Effects of age and frequency region on gap discrimination” 2004

Rachele Orsini (Member) – “A comparison of tone burst auditory brainstem response (ABR) latencies elicited with and without notched noise masking” 2004

Tim Skinner (Member) – “Effect of intensity increment on P300 amplitude” 2004

Shanin Goodall (Member) – “Ear and/or Gender Effects in Typically Developing Neonates Using Distortion Product Otoacoustic Emissions (DPOAE) at 2 kHz, 3 kHz, and 4 kHz” 2004

Sheetal Vyas (Chair) – “Hearing sensitivity and acoustic environment of percussion students at the University of South Florida” 2004

Kenton Tarver (Chair) – “Feasibility of using the N1-P2 complex to assess temporal resolution” 2005

Kristen Herrmann Decelles (Chair) – “Feasibility of using the N1-P2 complex to assess temporal resolution in older adults” 2005

Amanda Hemard (Member) – “FM system benefits and limitations” 2005

- Heidi Roberts (Member) – “Word Recognition Performances Across Lists” 2005
- Dana Libman (Chair) – “Effectiveness of hearing conservation programs in educational settings” 2005
- Jennifer Shackelford (Chair) – “A clinical test of auditory gap detection” 2005. ***Jerger Award for Excellence in Student Research***
- Jennifer Reeves (Member) – “Normative Data from 7 and 8 year olds on the USF Auditory Processing Test Battery” 2005
- Noel Wood (Member) – “Veteran Performance on the Communication Profile for the Hearing Impaired” 2005
- Jana Wells (Member) – “FM Technology in Adults with Sensorineural Hearing Loss. Part III: Evaluating Long-term Benefit” 2005
- Stephan Condill (Member) – “Determining the validity of the Utility Measures for Audiology Application (UMAA)” 2006
- Melanie Kirsch (Member) – “Reliability and Validity of the Utility Measures of Audiology Assessment for Benign Paroxysmal Positional Vertigo Treatment” 2006. ***American Academy of Audiology Student Research Forum Award***
- Lauren Stack (Chair) – “Relationship between DPOAE growth function slope and temporal resolution” 2006
- Curneisha Bryant-Terry (Chair) – “A new clinical test of within-channel auditory gap detection” 2006
- Deirdre Hamaker (Chair) – “A new clinical test of across-channel auditory gap detection” 2007
- Amanda Godfrey (Chair) – “The University of South Florida universal newborn hearing screening program” 2007
- Eddie Abalos (Member) – “The sensitivity of the Gans Sensory Organization Performance (SOP) test to peripheral vestibulopathy” 2007
- Hilary Nelson (Member) – “Utility of Auditory Screening Tests in Identifying Learning Disordered Children” 2007
- Cecelia Camacho-Ramirez (Chair) – “Effect of Task on Temporal Gap Perception for Adults with Normal Hearing” 2007
- Gabriel Pitt (Chair) – “Effect of gap duration on the N1-P2 complex” 2007
- Danielle DeBiase (Chair) – “The development of an adaptive clinical test of temporal resolution: Sound card differences”, 2008
- Victoria Gonzalez (Chair) – “Stability of gap detection thresholds”, 2008
- Barbra Gussow (Chair) – “University of South Florida auditory processing disorder test battery: Binaural tests” 2009
- Rachel Creel (Chair) – “University of South Florida auditory processing disorder test battery: Monaural tests” 2009
- Sophia Houze (Chair) – “University of South Florida auditory processing disorder test battery: test-retest reliability”, 2009
- Heather Carlson (Chair) - “The development of an adaptive clinical test of temporal resolution: Level differences”, 2009
- Jennie Brand (Member) – “Comparison of cubic and quadratic otoacoustic emission characteristics in normal hearing listeners”, 2010
- Mary Bruce (Chair) – “Masking-level difference for the Words-In-Noise test”, 2010
- Ben Russell (Member) – “Pitch-ranking of electric and acoustic stimuli by cochlear implant users with the HiResolution and Fidelity120 speech processing strategies”, 2010

- Victoria Williams (Chair) – “Effect of auditory training on the cortical auditory evoked response to gaps in noise among older listeners” 2011
- Kristen Weinbaum (Chair) – “Cortical auditory evoked response of aging musicians: temporal and spectral cues” 2011
- Stephanie Tracy (Chair) – “The effects of Anodyne Therapy on the subjective and objective auditory function of adults with hearing loss” 2011
- Robin Berry (Chair) – “The development of the USF APD test battery: young adults with normal hearing” 2011
- Ari Brooks (Co-chair) – “Relationship between temporal resolution and benefit from clear speech among older adults with hearing loss” 2011
- Amanda Tikkanen (Chair) – “Relationship between temporal resolution and word recognition in noise: children” 2011
- Heather Hoefer (Member) – “The Effects of cognitive demand on word recognition by native and non-native listeners in quiet and in noise” 2012
- Julia Hartman (Member) – “Effects of pulse rate on temporal integration functions in adult cochlear implant users” 2012
- Julie Ganio (Chair) – “Influence of sensorineural hearing loss on BBN gap detection” 2012
- Bridget Miskowiec (Chair) – “Influence of psychophysical paradigm and marker duration on NBN gap detection” 2012
- Shannon Morris (Member) – “Development of an auditory version of the Timed Activities of Daily Living (TIADL) test” 2012
- Mark Miller (Chair) – “Effect of cognitive training on P300 amplitude and latency in older adults” 2012

MASTERS THESES

Completed

- Athina Panagiotopoulos (Member) - "The benefits of clear speech at normal rates for older listeners with normal hearing" 2005

UNDERGRADUATE HONORS THESES

In Progress

- Stephanie Blount (Chair)

Completed

- Kenton Tarver (Chair) – “Effects of Age and Hearing Loss on Gap Duration Discrimination in Dynamic Stimuli” 2001
- Indira Alvarez (Chair) – “Effect of bilingualism on speech perception in noise” 2002
- Curneisha Bryant (Chair) – “Effects of age and hearing loss on temporal processing of binaural stimuli” 2003
- Deanne Adams (Chair) – “Effect of marker asymmetry on neurophysiological measures of temporal resolution” 2005
- Erin Cocchiola (Chair) – “Effect of bilingualism on temporal gap detection” 2006
- Ioanna Tagarelli (Chair) – “Effect of Listening and Communication Enhancement Training (LACE) on gap detection thresholds in older adults as measured using the Adaptive Tests of Temporal Resolution” 2012. ***Excellence in Undergraduate Research Award***
- Yunet Holmes (Chair) “Effect of the Brain Fitness™ cognitive training program on gap

detection thresholds in older adults as measured using the Adaptive Tests of Temporal Resolution” 2012

Celia Riffel (Chair) – “Effects of Intensive Piano Training on Auditory and Cognitive Processing in Older Adults” 2013

Jessica Allen (Member) – “Effects of Intensive Musical Education on Neurocognitive Abilities in School-Age Children” 2013

Brandon Fluegel (Chair) – “An examination of the P2 component of an auditory event-related potential as a neurophysiological indicator of early-stage cognitive decline” 2014.

Jerger Award for Excellence in Student Research

Michelle Nguyen (Chair) – “Monitored live voice compared to recorded voice presentation of the Auditory Verbal Learning Test (AVLT) among older adults” 2014

Ashley Acevedo (Chair) – “Review of aging and hearing on P1-N1-P2 and P3b auditory ERP components” 2015

Maya Elias (Chair) – “Auditory event-related potentials in mild cognitive impairment: A primer” 2015

Khadijah Tiamiyu (Chair) – “The relationship between memory and auditory evoked potentials in older adults” 2017

TEACHING EXPERIENCE

PROFESSIONAL ACTIVITIES & ORGANIZATIONS

Leadership Programs

- Institute for Academic Leadership, Florida State University (2015)
Professional Development in Higher Education Leadership program (2015-2016)

Editorial Board Activities

- Editorial Board Member, Editor At Large, *Ear and Hearing* (2012-2016)
Editorial Board Member, *Audiology Research* (2011-Present)
Editorial Board Member, Resource Reviews, *Ear and Hearing* (2009-2014)

Editorial Board Member, *American Journal of Audiology* (2009)
Assistant Editor, *Journal of the American Academy of Audiology* (2002-2009)
Editorial Assistant, *Ear and Hearing* (1997-1998)

Peer Review Activities

Special Emphasis Panel, Beeson Review, National Institute on Aging (NIA) (2015)
Peer Reviewer for *Perspectives*, a publication of the American Speech-Language-Hearing Association Special Interest Group 6: Hearing and Hearing Disorders (2012)
Grant Reviewer, US Department of Veterans Affairs Office of Research and Development: Sensory Systems Panel (2010-2011, 2015)
Peer Reviewer, American Speech-Language-Hearing Association Self-Study CEU Program (2007, 2008)
Referee, American Speech, Language, and Hearing Association Continuing Education Program (2007)
Referee, *International Journal of Acoustics and Vibration* (2010)
Referee, *Neuroscience* (2009)
Referee, *Neuropsychology* (2006-2007)
Referee, *American Journal of Audiology* (2005-Present)
Referee, Thompson Delmar Learning (2004)
Referee, *Journal of Mental Health and Aging* (2004)
Referee, *Journal of the Acoustical Society of America* (2004-Present)
Referee, *Journal of Speech, Language, and Hearing Research* (2002-Present)
Referee, *Ear and Hearing* (1999-Present)
Referee, *International Journal of Audiology* (2009-Present)

National Convention Committees

Invited Member, American Academy of Audiology Convention Committee, Featured Sessions (2012-2013)
Invited Member, American Academy of Audiology Convention Committee, Featured Sessions (2011-2012)
Invited Member, American Academy of Audiology Convention Committee, Research Podium Presentations (2011-2012)
Invited Chair, Student Research Forum, American Academy of Audiology Convention Committee (2010-2011)
Invited Member, American Speech-Language-Hearing Association Convention Committee, Auditory Processing (2010)
Invited Member, American Academy of Audiology Convention Committee, Student Research Forum (2009-2010)
Invited Member, American Academy of Audiology Convention Committee, Learning Labs (2009-2010)
Invited Member, American Academy of Audiology Convention Committee, Employment Services (2008-2009)
Invited Member, American Academy of Audiology Convention Committee, Research Pods and Posters (2007-2008)
Invited Member, American Academy of Audiology Convention Committee, Research Pods and Posters (2006-2007)

Invited Member, American Speech Language Hearing Association Convention
Committee, Audiology Posters (2005)
Invited Member, American Academy of Audiology Convention Committee (2002-2003)
Invited Co-Chair, American Speech Language Hearing Association Convention Hearing
Science Committee (2001-2002)
Invited Member, American Speech Language Hearing Association Convention
Technology Committee (2000-2001)

Other National/International Committees

Invited Member, National Institute on Aging (U13), Geriatrics Research: From Bench to
Bedside, Workshop on Sensory Impairment and Cognitive Decline (2017)
Appointed Member, American Speech-Language Hearing Association, Academic Affairs
Board (2015-2017)
Invited Member, AHEAD Working Group on Adult Hearing Screening (2012-2014)
Invited Member, American Academy of Audiology Task Force on Central Presbycusis
(2010-2012)
Coordinator, American Speech-Language-Hearing Association Division 6 Steering
Committee (2010)
Elected North American Representative, International Society of Audiology (2008-2016)
Mentor, American Speech-Language-Hearing Association's Mentoring Academic
Research Careers (MARC) Program (2007-2009)
Elected Member, American Speech-Language-Hearing Association Division 6 Steering
Committee (2008-2010)
Invited Member, Association for Research in Otolaryngology Membership Committee
(2006-2009)
Invited Member, American Academy of Audiology Research Committee (2004-2006)
Invited Member, American Academy of Audiology Education Committee (2003-2004)

Local/State Committees

Faculty Coordinator, Florida Department of Education State Course Numbering System
(2015-Present)
Coordinator, Student Research Forum, Florida Academy of Audiology (2008-2009)

University Committees

USF Board of Trustees Academics and Campus Environment Committee (2016-2017)
USF Department of Communication Sciences and Disorders Faculty Evaluation
Committee (2012-2014)
USF College of Behavioral and Community Sciences Tenure and Promotion Committee
(2012-2013)
USF Research Council of Reviewers (2012-Present)
USF Department of Communication Sciences and Disorders Search Committee for
Audiology Instructor (Chairperson, 2011-2012)
USF Department of Communication Sciences and Disorders Faculty Evaluation
Committee (2011)
USF College of Behavioral and Community Sciences Tenure and Promotion Guidelines
Task Force (2011)
USF Department of Communication Sciences and Disorders Search Committee for SLP

Assistant Professor (2010)
USF Neuroscience Collaborative (2008-Present)
USF Department of Communication Sciences and Disorders Faculty Evaluation
Committee (2003-2005, 2007-2009, 2011-2012)
USF Council on Technologies for Instruction and Research (2005-2011)
USF Institute on Aging (2001-Present)

Memberships

American Speech Language Hearing Association Special Interest Division 6: Hearing and Hearing Disorders: Research and Diagnostics (2003-Present)
American Academy of Audiology, Acoustical Society of America, American Speech, Language and Hearing Association, American Auditory Society, International Society of Audiology, International Society of Acoustics and Vibration.

HONORS AND AWARDS

Alumni Hall of Fame Inductee, University of South Alabama (2013)
Outstanding Faculty Mentor, Department of Communication Sciences and Disorders – Provost Award (2011)
College of Behavioral and Community Sciences Nominee, University of South Florida Graduate School Outstanding Graduate Faculty Mentor Award (2010)
University of South Florida International Travel Award, \$2,180 (2010)
Chair's Award for Outstanding Professional Service: National/International, Department of Communication Sciences and Disorders, University of South Florida (2010)
Accreditation Commission for Audiology Education (ACAE) Grant Award - \$5,000 toward accreditation of USF Au.D. program (2009-2010)
American Speech-Language-Hearing Association Award for Continuing Education (ACE) (2008-2011)
The Hearing Journal's Most Thought Provoking for Hearing Science (2008)
USF College of Arts and Sciences International Travel Award, \$1500 (2006)
The Hearing Journal's Most Thought Provoking for Hearing Science (2005)
University of South Florida Research Rising Star (2005)
American Academy of Audiology Researcher in the Spotlight (2004)
The Hearing Journal's Best All Around Read for Aural Rehabilitation (2004)
1999 American Speech Language Hearing Association Travel Fellowship, \$1,000
1999 American Academy of Audiology Student Research Award, \$500
Phi Kappa Phi Honor Society (1993 to 2009)

GRANTS

Funded

National Institute on Aging (2017-2020)

R01

Co-Investigator (Jerri Edwards PI)

“Interventions to Attenuate Cognitive Decline”

The purpose of this randomized clinical trial is to measure the effects of two types of music-based auditory cognitive training programs on the auditory processing and cognition of older adults.

National Institute on Aging, R36 Dissertation Award (2015-2017)

Co-Investigator (Elise Valdes PI; Jerri Edwards Mentor)

“Auditory Cognitive Training”

The purpose of this project is to support the dissertation of Elise Valdes.

USF College of Behavioral and Community Sciences (2015-2016)

Co-Investigator (Jerri Edwards PI)

“Moderators and Mediators of Cognitive Intervention to Attenuate Cognitive Decline.

The purpose is: to compare the effectiveness of cognitive training and cognitive stimulation to improve cognitive and everyday function among older adults with and without heart failure or Parkinson’s Disease; to examine moderators of training gains and transfer to everyday function; and to elucidate the underlying neurophysiological mechanisms by which cognitive training effects change.

USF Health Byrd Alzheimer’s Research Institute (2013-2016)

Principal Investigator

“Hearing and Cognition: ERP as Biomarker for Incipient MCI and AD”

The purpose of this project is to identify ERP biomarkers of early cognitive decline and to elucidate the relationship between hearing and cognition.

USF College of Behavioral and Community Sciences (2012-2013)

Co-Investigator (Ross Andel PI)

“Auditory Cognitive Training in Older Adults with MCI”

The purpose of this project was to collect pilot data for a randomized controlled trial to assess the effectiveness of auditory cognitive training among older adults with MCI.

Starkey Laboratories, Inc. (2011-2013)

Principal Investigator

“Effects of Cognitive Training on Auditory Processing of Information”

The purpose of this pilot project is to compare the effects of two commercial auditory training programs (LACE and Brain Fitness) on the auditory processing of groups of older adults with hearing loss using behavioral and neurophysiological measures.

Anodyne Therapy System (2008-2009)

Principal Investigator

“Effects of Anodyne Therapy on Objective and Subjective Auditory Function of Adults with Hearing Loss”

The purpose of this project was to explore the effects of infra-red light therapy on auditory function using standard tests.

Etymotic Research, Inc. (2007-2008)

Co-Principal Investigator

“Auditory neural plasticity in trained vocal musicians”

The purpose of this pilot project was to compare the cortical auditory evoked potentials of older adults with and without professional music training.

NIH – National Institute on Aging (2004-2007)

R03

Principal Investigator

“Physiological correlates of auditory perception”

The purpose of this project was to measure the peripheral and central auditory function of older adults with and without deficits of temporal processing; stimuli used were representative of those often used behaviorally to study such age-related temporal deficits.

American Academy of Audiology New Investigator Research Award (2000-2002)

Principal Investigator

“Effects of age on gap discrimination: Defining perceptual channels”

The purpose of this project was to determine the frequency difference between sounds bounding a silent gap at which gap discrimination requires across-channel processing.

USF Research and Creative Scholarship Grant (2000)

Principal Investigator

“Effects of age on discrimination of silent gaps in dynamic stimuli”

The purpose of this project was to use complex, dynamic stimuli approximating specific speech contrasts to measure the effects of dynamic frequency and duration (separately and in combination) on gap duration discrimination.

Sigma Xi Grant-in-aid of Student Research (1998)

Principal Investigator

“The effects of reverberation on binaural gap detection in listeners with normal hearing and listeners with impaired hearing”

Submitted

National Institute on Aging (submitted in 2017, funding decision pending)

R01

Co-Investigator (Jerri Edwards and David Morgan PIs)

“Preventing Alzheimer’s Disease with Cognitive Training: The PACT Trial”

The purpose of this large-scale randomized clinical trial to assess and follow 7000 older adults over a seven-year period to determine whether computerized speed of processing training delays the onset of mild cognitive impairment and/or dementia.

Not Funded

National Institute on Aging (submitted in 2011, 2013, 2016)

R01

Co-Investigator (Jerri Edwards PI)

“Auditory-Cognitive Training in Older Adults with and without MCI”

The purpose of this project is to assess the effectiveness of auditory-cognitive training in older adults with and without amnesic mild cognitive impairment to improve cognition and everyday function, as well as to identify neurophysiological markers of gains attributable to the intervention by use of event-related potentials.

National Institute on Aging (submitted 2014; resubmitted 2016)

R21

Principal Investigator

“Mechanisms of the Hearing-Cognition Relationship”

The purpose of this project is to use auditory ERPs to examine each of five potential mechanisms of the hearing-cognition relationship.

PCORI, Assessment of Prevention and Treatment Options (submitted 2015)

Co-Investigator (Jerri Edwards PI)

“Cognitive Training to Enhance and Prolong Functional Abilities, Mobility, and Independence Among Older Adults At-Risk for Impairment”

The purpose was: to compare the effectiveness of speed of processing training versus cognitive stimulation to improve cognitive and everyday function among older adults with and without heart failure or Parkinson’s Disease; to compare the effectiveness of training and cognitive stimulation to improve wellbeing and quality of life among older adults with and without heart failure or Parkinson’s Disease; and to examine heterogeneity of treatment effects by determining personal characteristics that moderate training gains and transfer to everyday function.

National Institute on Aging (submitted in 2013, resubmitted in 2014)

R01 - Project 2 of a P50 submitted with Byrd Alzheimer’s Institute

Principal Investigator

“Hearing and Cognition: ERP as Biomarker for Incipient MCI and AD”

The purpose of this project is to identify ERP biomarkers of early cognitive decline and to elucidate the relationship between hearing and cognition.

National Institute on Aging (submitted 2011; resubmitted 2012)

R01

Co-Investigator (Jerri Edwards PI)

“Cognitive Training to Maintain Health and Independence of Older Adults”

American Health Assistance Foundation – Alzheimer’s Disease Research

(submitted 2011)

Co-Investigator (Ross Andel PI)

“Auditory-Cognitive Training in Older Adults”

National Institute on Aging (submitted 2011; resubmitted 2012)

R01

Co-Principal Investigator (Jerri Edwards also Co-PI)

“Mechanisms of Speed of Processing Training”

National Institute on Aging (submitted 2010; re-submitted 2011)

R01

Co-Investigator (Jerri Edwards PI)

“Mechanisms of Speed of Processing Training”

One of four R01s of Program Project Grant “Promoting Safe Mobility Among At-Risk Older Adults”

Project PI – Dr. Karlene Ball, University of Alabama at Birmingham

National Institute on Aging (submitted 2009; re-submitted 2010)

R01

Principal Investigator (Jerri Edwards also PI)

“Effectiveness of Visual/Auditory Cognitive Training in Aging”

American Federation for Aging Research, Ellison Medical Foundation (submitted 2010)

Postdoctoral Research in Aging Grant

Mentor (Jennifer O’Brien PI)

“Exploring the role of dopamine as the underlying neurobiological mechanism of cognitive enhancement following speed of processing training”

Alzheimer’s Drug Discovery Foundation (submitted 2010)

Co-Investigator (Jerri Edwards PI)

“Training Cognitive Speed of Processing: Underlying Mechanisms”

The International Music Association (NAMM) (submitted 2008)

Co-Principal Investigator (Dee Nikjeh also PI)

“Life-long impact of early music training: an ERP study of the aging auditory system across five decades of musicians”

American Federation for Aging Research (AFAR) (submitted 2007)

Co-Principal Investigator (Dee Nikjeh also PI)

“An ERP study of the aging auditory system across five decades of musicians: long-term impact of early music training”

American Federation for Aging Research (AFAR) (submitted 2004)

Principal Investigator

“Physiology and Behavior - Explaining Age-Related Changes in Hearing”

March of Dimes (submitted 2002)

Co-Principal Investigator (Stanley Graven also PI)

“Effects of light and noise on the developing infant in the NICU”

National Institute on Deafness and Other Communication Disorders (submitted 2002)

K23

Principal Investigator

“Age-related changes in temporal processing”
