

2010/2011 Distinguished Lectureship in Aging

Guest Speaker

**Alice Cronin-Golomb, Ph.D.**

**“Vision and Visual Cognition in Aging,  
Alzheimer’s Disease, and Parkinson’s Disease”**

Dr. Cronin-Golomb is currently a Professor at Boston University in the Clinical Program as well as the Program in Brain, Behavior and Cognition. She is also a member of the faculty of the interdisciplinary Program in Neuroscience. The focus of her research is neuropsychology, specializing in vision and visuospatial cognition in normal aging and in age-related neurodegenerative disorders, principally Parkinson’s disease and Alzheimer’s disease.

**Friday, March 4, 2011 at 10:30 am**

**College of Public Health Auditorium 1023-C**
